

The SUNY Plattsburgh Institute for Ethics in Public Life presents

## Cryptocurrency is a Solution in Search of a Problem: The Immense Environmental Costs of a 21st Century Ponzi Scheme

Mar. 26 (W) at 3:30 in person or on Zoom (see below)

We're at a moment where there is high interest in cryptocurrencies. The Trump administration announced a "strategic cryptocurrency reserve," and is actively seeking to deregulate the industry and promote cryptocurrencies. This is the case even though, there are major ethical issues with cryptocurrencies and it is not clear that there is any real value in their existence.

We welcome special guest Dr. Colin Read, Professor of Economics and Finance, to help us understand this important topic. This forum is an opportunity for students, faculty, administrators, staff, alumni, and community members to come together and learn about this issue.

Join us in person in Hawkins 233 (the Institute offices) or  
on Zoom at <https://plattsburgh.zoom.us/j/87880581792>

The Institute for Ethics in Public Life is generously supported by gifts to the  
Plattsburgh College Foundation.
