

The SUNY Plattsburgh Institute for Ethics in Public Life presents

“The Ethics of AI in Higher Education”

Oct. 1 (W) at 3:30 in person or on Zoom (see below)

What are the ethical implications of the different ways AI can be used in higher education? It is no longer possible to avoid AI or ban its use by our students, because these technologies have been embedded in the software and websites we regularly use. Faculty and institutional policies are all over the place, from encouraging its use to banning it.

The Ethics Committee of the SUNY UFS is researching this issue, and as a committee member I’m interested in your perspectives on this. Please join me to share them.

Please join us for the discussion on this important topic. This forum is an opportunity for students, faculty, administrators, staff, alumni, and community members to come together and learn about and express their perspectives on this issue.

Join us in person in Hawkins 233 (the Institute offices) or
on Zoom at <https://plattsburgh.zoom.us/j/82288939138>

The Institute for Ethics in Public Life is generously supported by gifts to the
Plattsburgh College Foundation.
