

Fulfill CCC requirement Quantitative Reasoning with a great Anthropology Class!

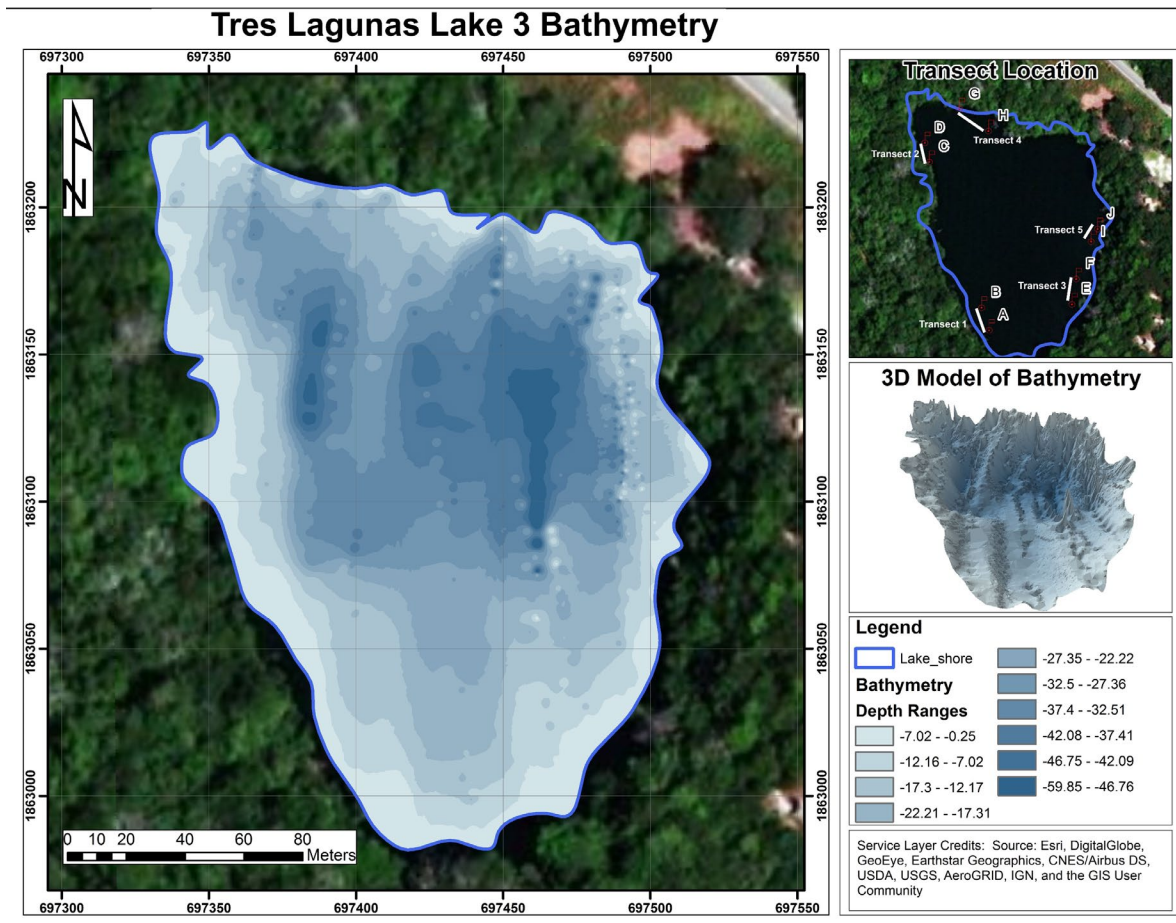

Course: ANT329: GIS Systems in Anthropology, CRN: 7897

When: Mon. and Wed. from 2:00p – 3:15p

Modality: Hybrid – Zoom and in person

Instructor: Dr. Justin Lowry

Learn to make and use maps
like these!

Geographic Information Systems (GIS) as a tool, can make spatial or geographic patterns clear that would otherwise be unclear. This course applies archaeology; culture, health, museum studies, anthropology; and transnational global issues within a GIS framework.

Here every student can learn basic techniques for acquiring and managing data, analysis, and creating geospatial data.

For any questions, please contact the instructor, Dr. Justin Lowry, at jlowr002@Plattsburgh.edu
